

2024 Product Catalog

Where Service Meets Quality.

W.E.H. Supply, Inc. 54 Denver Road Denver, PA 17517

September 2023

The last few years have brought, supply chain challenges, rapid growth within our industry, and leadership change within W.E.H.

As we make the transition to the next generation of executive leadership, we make the promise to only improve on the W.E.H. that you have always known. We will always strive to lead the industry in service and maintain our focus on delivering quality products.

As supply chain issues plagued the industry/country, we were able to not only maintain stock, but grow along with you. We are proud of both our in-house team and outside manufacturing partners, for responding to the demand and maintaining to this day.

The recent industry growth has been thrilling to be a part of. Not only did we see an increase in building quantity, we have also seen it take a broader scope. This expansion can be seen in our catalog as we continue to widen our product offerings, produce custom products, or by private labeling our products to support your brand.

We are honored that you have chosen us as your material supply partner.

God Bless,

Shane Hartman President

Welcome To W.E.H. Supply, Inc.

W.E.H. Supply, Inc. Is a family owned and operated wholesale materials supplier located in Northern Lancaster County which primarily services the Shed, Portable Building, Manufactured Housing, and Outdoor Living Space industries.

W.E.H. Supply, Inc. was founded in 1979 by William E. Hartman, when he saw a need for quality materials in the Manufactured Housing industry.

Shortly after W.E.H. Supply, Inc. was established, William E. Passed. His wife, Joanne, and three sons Bill, Ken, and Mike saw that the business lived on & worked everyday to continue building what was once their father's dream.

W.E.H. Supply, Inc. has grown exponentially over the years as they have expanded product distribution outside of the Manufactured Housing industry & into the Shed, Portable Building, and Outdoor Living Space industries.

AWNING (PUSH)

 ${\it Note: Some \ sizes \ or \ colors \ listed \ may \ be \ special \ order \ or \ not \ in \ stock \ for \ all}}$

window types. Non listed sizes and custom options available

PRODUCT INFORMATION

The Dutchland Aluminum Awning Window an ideal application for your shed, garage, or out buildings. This window comes with a color matched gasket, tempered glass and a charcoal fiber mesh screen. This window operates using a push bar from the inside of the building. The push bar is also used to lock the operating pane. This unit comes with the same charcoal fiber mesh as our vertical sliding windows.

Specs:

- Inside Operation
- 3 Tilt Settings
- Tempered Glass (standard)

Grids Between Glass!

PRODUCT INFORMATION

Dutchland Aluminum Double Pane Windows offer superior strength and allow for thinner frames and larger openings. This window line offers a thermally enhanced design for improved energy efficiency in comparison to single pane aluminum windows. Dutchland Aluminum windows require minimal maintenance. Dutchland's quality design & materials result in an ideal window because of the durability, longevity and functionality of this product.

Specs:

All Dutchland Double Pane Aluminum windows are grids between glass (GBG).

EZE-BREEZE 4-TRACK SYSTEMS

PRODUCT INFORMATION

Eze- Breeze is a product set out to solve one common issue. How can you enjoy all the benefits of the outdoors with out facing some of the undesirable elements in nature. How can you embrace the comfort of a sun-room and still enjoy a fresh comfortable breeze?

Eze-Breeze offers great enclosure solutions that are both functional and aesthetically pleasing. 10-mil vinyl glazing is standard and this feature gives the same benefits as glass without the cost or weight. This vinyl material is resilient, when accidentally pushed or distorted it will return to its original shape within minutes.

- Side sliding units
- Large viewing area with minimal framing
- Up to 8' feet wide
- All sashes operate even if you have 2,3,4, or 5 (fixed is available)
- 50%-100% ventilation
- 100% ventilation with easily removable panels
- 2 track and 4 track frame options
- Corrosion free nylon rollers
- One finger operation
- Vents can be locked with swivel latches

Trending!

All prehung doors are assembled on site and made using only the highest quality materials, resulting in, the production of a door that will stand the test of time.

- Many options for (jambs/sill/hinges/etc)
- Minimal maintenance
- Resist scratching/denting/fading
- Fiberglass skins will not decay like wood doors or rust like steel doors.
- Highly energy efficient
- CFC-free polyurethane foam core
- Great for climate controlled structures
- Wood grain texture, looks and feels like real wood.
- High definition embossed panels

SHED WALL: ORGANIZER KIT

Before installing ShedWall™

- Screws x60
- Screw bit x1
- Precut panels x8
- Precut J-Trims x2
- Precut Top Trim x1
- Detailed installation instruction sheet.

Product Specs:

- 8' Width x 4' Height (when assembled)
- 32 sq. ft. of usable surface area.
- Weight capacity of 150 lbs/linear foot.
- Compatible with all ShedWall™ accessories.

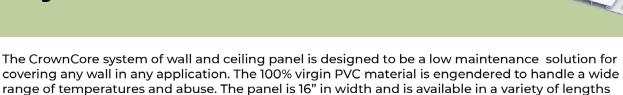

After installing ShedWall™

- Trim for seamless installation
- Patented locking feature ensures level installation
- Flame resistant
- 100% Recyclable
- Limited lifetime warranty
- Cavity promotes airflow and provides space for wiring
- Non-toxic material
- Made in North America
- Faster installation time
- Rigid PVC withstands extreme cold climates
- Panels with 8" reveal
- Hidden screws for clean appearance
- Patented screw placement Holds 250 lbs/ Linear Foot
- Full back panels eliminate warping

Less than 20min install time (per 4x8' Kit)!

AG Wall Ceiling and Wall Panel

including 8, 10, 12, 14, and 16 ft.

AG WALL: CEILING AND WALL PANEL

Applications

· Agricultural Facilities · Food Processing Facilities · Car Washes · Commercial Kitchens and Bathrooms

Light Weight

- · Conveniently packed in a box
- · Can be transported with most vehicles
- · Easy to handle

Temperature Resistant

- Can withstand extreme temperatures
- Flame resistant

Moisture Resistant

- Moisture resistant
- Mold resistant

Strong Construction

- · Full back eliminates warping
- Impact resistant

CAULK & SEALANTS

CLEAR GEOCEL SEALANT | #8125

Can be used for sealing or adhering glass, wood, vinyl, metal, ceramic, and many painted surfaces. Meets ASTM C 920, TTS-00230C; FDA/USDA approved.

Specs:

- 100% Silicone
- High modulus
- Excellent adhesion to non-porous surfaces
- Cured sealant is mildew resistant
- Good resistance to weathering, vibration, and moisture
- ±25% joint movement

12 Tubes per case CLEAR | 100% Silicone | 10.3oz

WHITE GEOCEL SEALANT | #8125

Can be used for sealing or adhering glass, wood, vinyl, metal, ceramic, and many painted surfaces. Meets ASTM C 920, TT-S-00230C; FDA/USDA approved.

Specs:

- 100% Silicone
- High modulus
- Excellent adhesion to non-porous surfaces
- Cured sealant is Mildew resistant
- Good resistance to weathering, vibration, and moisture
- ±25% joint movement

12 Tubes per case

WHITE | 100% Silicone | 10.3oz

2300 CLEAR CONSTRUCTION (PAINT-ABLE)

2300® Construction Tripolymer Sealant is a high performance elastomeric sealant used for a wide variety of roofing, trim, architectural metal, manufacturing, underdeck system, solar roof system, and general construction applications.

Specs:

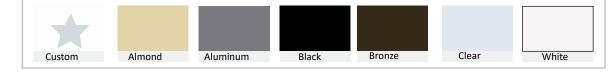

- Exceptional elongation and flexibility
- Excellent adhesion to many building surfaces, even when damp
- Remains flexible
- UV resistant
- **Tripolymer Sealant**

- Resealable, may be applied over itself
- Asphalt shingle compatible
- Easily applied, non-stringing formulation
- Tools and cleans up easily
- Cured sealant is mildew resistant

24 Tubes per case | 10.3 oz.

CAULK & SEALANTS

WHITE ACRYLIC LATEX (PAINT-ABLE) CAULK

ASI 174 Siliconized Acrylic Latex is a high performance, paint-able sealant used for sealing interior and exterior joints. ASI 174 Siliconized Acrylic Latex cures to form a strong, flexible water tight seal. ASI 174 is further modified with proprietary additives to optimize resistance to oxidation, UV degradation and cold temperatures. ASI 174 will also expand and contract with paint which allows it to be a painted using most latex and oil based paints.

Specs:

- Mold & Mildew Resistant When Cured
- Non-Sag, Use On Vertical Or Overhead Joints
- Resistant to UV Degradation And Weathering
- Bonds To Most Common Building Materials
- Easy To Use, Water Clean Up
- Paint-able
- Good Adhesion

24 Tubes per case | 10.3 oz. White | Fixed Nozzle

CLEAR | 502 100% RTV SILICONE

ASI 502 100% RTV Silicone is a one-component, moisture cure, acetoxy silicone that cures to form an extremely durable rubber that can withstand a variety of extreme environments. Unlike many organic sealants, ASI 502 is extremely resistant to degradation, weathering, extreme temperatures and mold and mildew. ASI 502 meets the requirements of NSF Standard 51 and FDA Regulation No. 21 CFR 177.2600 for food grade applications. ASI 502 100% RTV Silicone can be applied to both vertical and overhead joints without sagging and is easy to extrude at both hot and cold temperatures. It will adhere to most common building materials

Specs:

- 100% Acetoxy RTV Silicone
- Mold & Mildew Resistant
- Resistant to UV Degradation And Weathering
- Withstands Extreme Cold & Extreme Heat
- 25% Joint Movement Capability
- One-Component, Easy To Use Formulation

24 Tubes per case | 10.2 oz.

Storage Sheds

Slab Doors are perfect for everyday Storage Sheds, Choose between solid 6panel, 2 Panel Plank, or one of these options with a Glass Insert!

Dutchland Aluminum Vertical Sliding Windows and Transoms are the way to go for Storage Sheds. Economical & great quality!

Add Shutters to pair with the customers house and up-sell your building!

8X8 Gable Vents and Eave Vents are a great way to keep ventilation costs economical and efficient!

Garage Tread Plate is a must for any

building that you are driving any

vehicle or equipment in and out of.

Decorative Hinges are using slab doors. Just

Don't miss out on the details. Complete your line up with the right handle, interior handle, and other hardware options like door bumpers, back plates, spring loaded barrel bolts & T-Nuts.

Heavy duty & industrial!

These shed ramps make a great solution for driving lawnmowers and other gardening equipment for easy entry and removal.

The building shown was our 2022 Shed Builder EXPO display building, manufactured by Valley Structures of Virginia for the Richmond VA show. This building showcased a vast variety of products and numerous material application techniques to promote the new and trending backyard studio demand!

Consider adding a Glass Insert with Blinds Between Glass (BBG) to your choice of prehung door.

Our display featured the Slate Gray option in the Full View 1-Lite BBG with a matching sidelight insert.

Black

54" Prehung Door with an

Shelf Brackets provide a clean and modern solution for interior storage. We utilized slabs of reclaimed wood to show the brackets in use as a

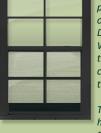

The Pacifica Lever handle in matte black (Displayed in Satin Brass) is reversible and the perfect locking entry set solution for the modern studio look.

Shed Wall Accessories are perfect for storage and organization of small spaces, especially for studio sheds!

Shed Wall is the go to product for a quick & simple installation and functional wall covering. This product offers a great way to finish off the inside of your structure with out the mess of drywall.

We modeled the possibilities of grid options with our Dutchland Aluminum Windows by removing the bottom grids to create a 4/1 pattern (in the photo above).

The 4/1 grid pattern is hot with the Modern Farmhouse trend, the removable grids in our Dutchland windows makes it super easy and possible to offer this simple upgrade for your customers.

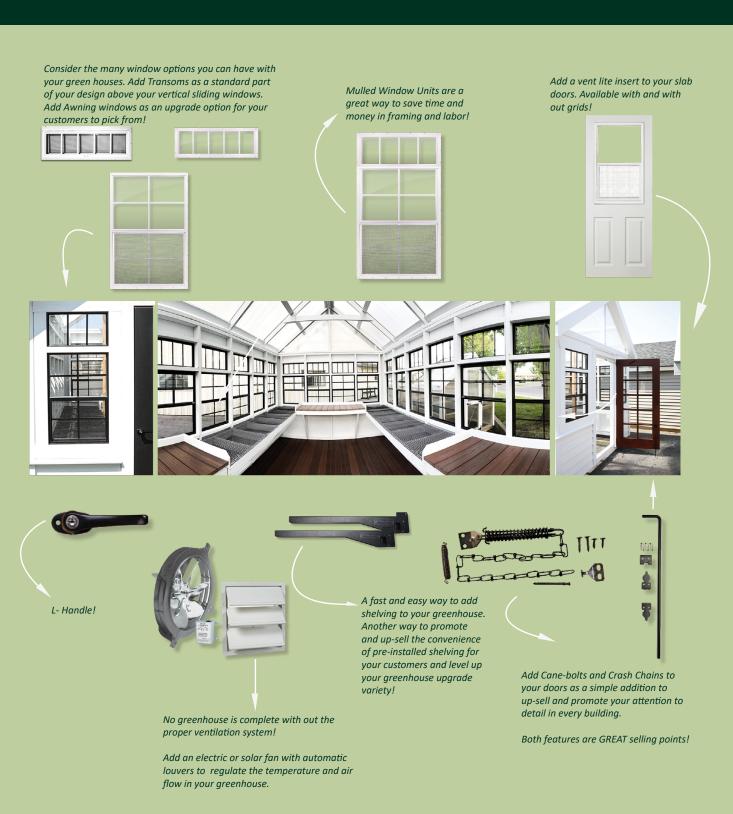

Treenhouses

Poffing Sheds

Dutchland Aluminum Windows make the perfect treatment for all green house buildings.

Transoms in doors allow for additional light and create a uniform look with the transoms above the vertical sliding windows.

6" & 12" Acorn Hinges are the perfect hardware option. Consider adding an acorn back plate to your T or L handle to finish off the look!

Heavy duty & industrial!
These shed ramps make a great
solution for driving lawnmowers
and other gardening equipment
for easy entry and removal.

Add Cane-bolts and Crash Chains to your doors as an easy way to up-sell and promote your attention to detail in every building.

Both features are GREAT selling points!

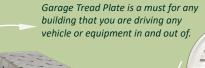

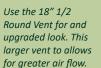

Garages and Pole Barns

Utilize the Classic Window (or Louvered) Series Cupolas to create interest to you structure.

Kinro Insulated Vinyl are super for all vinyl sided buildings, they are a high quality window at a reasonable price. Available in multiple colors & just about any grid pattern/configuration to match trends in the residential industry.

Shed Wall - as little or as much as you want! Install one section, or use it as a floor to ceiling covering! An easy way to keep spaces organized and clean!

Standard Single Prehung
Doors will do the trick for
any Garage or Pole Barn.
The option to add a deadbolt
is a great way to keep your
structure secured!

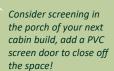

PVC Rails are a great addition to porches & match perfect to the PVC Screen Door!

121 Screen Frame

A high quality prehung door and deadbolt/ entry critters from set combo are essential for any live in space. Finish off the look by having your prehung door painted and by picking a glass insert with Blinds Between Glass (BBG) for privacy.

Tiny Homes

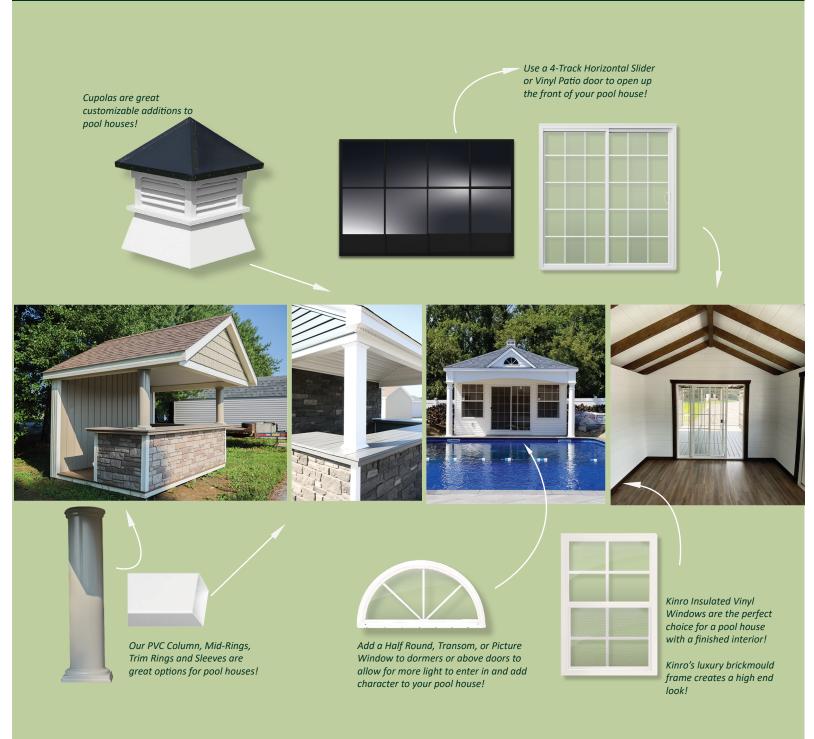

in as you want!

Pool Houses

Outdoor Living Spaces

Kinro Insulated Vinyl 1/2 Round Window, perfect adding light to peaks and dormers.
